

■ Clear Coat

Aerosol - 500ml

Clear Coat is a very high-quality and crystal-clear finishing paint in a spray can with properties that equal those of a professional spray-gun. It is a quick-drying lacquer with good filling properties. After drying, it provides a scratch- and wear-resistant coating of OEM quality that is perfectly UV resistant. Clear Coat gives the treated surface a perfect and long-lasting shine.

In the automotive sector, Clear Coat is perfectly suited for spray-painting all kinds of parts such as mirror caps, body frame interiors, wings and doors, but also rear panels or pre-lacquered corners of fronts, etc. Because of its fast drying and excellent slump resistance, Clear Coat is also highly suitable to be used for finishing aluminium rims.

In the industry sector, furniture industry is one of the domains where Clear Coat can be perfectly used, for example to finish panels, doors, wall units, etc. The product also has various applications in model making.

Its fast drying and excellent slump resistance make Clear Coat particularly suitable for fast application in several layers. Thanks to its aerosol packaging this product is extremely user friendly and easy to apply. Using the special nozzle the product can be sprayed in a very professional spray pattern.
