

■ **Repaplast Primer New Formula**

Aerosol - 500ml

Repaplast Primer New Formula is a professional adhesive enhancer suitable for use on most types of plastics. Thanks to its unique improved formula, this product considerably enhances adhesive properties when used for repairs, gluing and spraying.

Thanks to its improved formula, Repaplast Primer New Formula can now be used on more difficult surfaces and offers much better adhesive properties.

Repaplast Primer New Formula is ready-for-use and easy to apply.

Repaplast Primer New Formula dries quickly, allowing follow-up action after a waiting time of only 10 minutes. Because of this, Repaplast Primer New Formula is the ultimate primer for any type of plastic repair.

Repaplast Primer New Formula comes in a user-friendly aerosol can with easy application.

Repaplast Primer New Formula is also part of the Repaplast Plastic Repair System.
