F

NEW FOR 2017/18

16 11 01 / 1

Please be advised in the continued pursuit of simplicity of understanding we are currently up-dating our batch code system.

It is our aim to have a single batch code assigned to each product where applicable.

All future new batch codes will be assigned a simple "F" code thus replacing the need of an "A" & "G" Code. (Please see example above)

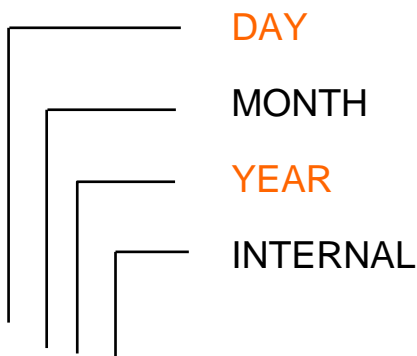

Some changes have already taken affect and the remainder will be implemented over the coming months.

All changes will be advised as soon as this becomes relevant.

Thank you for your understanding and patience.
