

SPARSHOLT

Hi Mel and Jim,

Last Saturday morning I was having a nice long lay in when I was rudely woken by one of our PMO's { Premises maintenance operative }.

He was driving all the gear up to the Chelsea Flower Show for the horticultural department and they had some sort of water feature that needed sealing. So Dudley came to me because he knows how good Innotec's Adheseal is and I directed him to my store.

So to cut a long story short Adheseal has saved the day and contributed to Sparsholt College getting a GOLD medal at the show.

Various programs may show the feature in question so you can see it knowing that one of your products is making it work.

Cheers

Dave Denham
